On all Medicare-covered expenses, a doctor or other health care provider may agree to accept Medicare “assignment.” This means the patient will not be required to pay any expense in excess of Medicare’s “approved” charge. The patient pays only 20% of the “approved” charge not paid by Medicare.

Physicians who do not accept assignment of a Medicare claim are limited as to the amount they can charge for covered services. The provider can only charge you up to 15% over the amount that non-participating providers are paid. Non-participating providers are paid 95% of the fee schedule amount.
